1.18 Automate a Web Application.

DESCRIPTION

Project Objective:

As a Full Stack Developer, you have to build an automation script that automated the basic functionalities like registration and login.

Code in Eclipse with console

```
Registarious Dattomation Webjam X

System SetProperty ("webdriver.chrome.driv

WebDriver driver = new ChromeDriver(); //

Id driver.get("https://demo.automationtestindriver.manage().window().maximize();

Thread.sleep(s000);

driver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("//input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.findElement(By.xpath("/input(Bplactiver.f
                                                                                                                                                                                                                                                                                                                                                                     driver.findElement(By.id("checkbox1")).click();
driver.findElement(By.id("checkbox2")).click();
friver.findElement(By.id("checkbox2")).click();;
Select friuts = new Select(driver.findElement(By.xpath("//label[@class='col-md-3 col-xs-3 col-sm-3']")));
fruits.selectByVisibleText("English");
```

```
driver.get("https://demo.automationtesting.in/Register.html");
driver.manage().window().maximize();
Thread.sleep(4000);
driver.finadElement(By.xpath("//input[@placeholder='First Name']")).sendKeys("Vishwanat Thread.sleep(4000);
driver.findElement(By.xpath("//input[@placeholder='Last Name']")).sendKeys("Bagali");
Thread.sleep(4000);
//driver.findElement(By.xpath("//input[@placeholder='Last Name']")).sendKeys("Bagali");
                                                                                                                                      Thread.elegy(4000);

//dxiver.findElement(By.xpath("//input[8name='phone']")).sendKeys("8765461684");

//dxiver.findElement(By.xpath("//input[8name='phone']")).sendKeys("8765461684");

//dxiver.findElement(By.xpath("//input[8tyne='ghone']")).sendKeys("8name");

Thread.sleep(4000);

dxiver.findElement(By.xpath("//input[8type='email']")).sendKeys("wmb@gmail.com");

Thread.sleep(4000);

dxiver.findElement(By.xpath("//input[8type='tel']")).sendKeys("7418529630");

Thread.sleep(4000);

McDElement radiol = driver.findElement(By.xpath("//input[8value='Male']"));

radiol.click();
```
